

Media and Press Release;

To find out the real reason for the Base Closings, (B.R.A.C.) all one has to do is pull up on the Internet, "BLUEPRINT FOR THE PEACE RACE" Outline of Basic Provisions of a Treaty on "General and Complete Disarmament in a Peaceful World." (aka Publication No. 7277). This was signed into law under John F. Kennedy, where he made in a speech at the United Nations on September 25, 1961, asking for global acceptance of the plan and he presented the above booklet to every U.N. Member. The very next day, on September 26, 1961, the Congress passed P.L. 87-297 into law, and Kennedy signed it as future policy for all succeeding presidents. (The abridged version was compiled by the State Department) (These are government documents and can be pulled up on the Internet to view and research yourself)

Not all bases will be closed. Only those bases which are to be used by the "world army" will be allowed to stay open. They are being "transformed" and "realigned" for approval of the International Disarmament Organization (I.D.O.) The I.D.O. Is a major arm of the United Nations. This process is being addressed as the "transformation" of the U.S. Military.

In Dec. 1989, George Herbert Walker Bush signed another disarmament law to increase Public Law 87-297, called P.L. 101-216. There shall be no more national Armed Forces: No more Army, Navy, Marines, or Air Force! By the end of Stage 111 they, including our military bases, will all be transformed as a major part of an international U.N. "world army". This puts an end to our Constitution, our sovereignty, our liberty, and our "Declaration of Independence"! Have you caught on yet? Our Government will be overthrown by the U.N. With the complete and overwhelming okay from our President, V. President and our Congress.

Does George W. Bush know about the "Blueprint for the Peace Race"? You bet he does, he uses double talk all the time, right out in the open. If you remember correctly, the first George H. W. Bush, was the first to openly speak of the One World Government, and George W. is continuing that goal. His latest round of base closings is not for cutting military expenses. He appointed the B.R.A.C. Commission in order to facilitate the transformation of all the military bases of the United States from use by national armed forces to the exclusive use by international forces of the U.N. World army. The agreement for this plan is in the government book listed above. In this latest base closing, they use the word : "Redevelopment" to minimize the economic consequences. The real truth about the base closing is in the third phase of the above booklet to finish the process that JFK started back in the 60's. These dastardly deeds must be stopped at all costs!

With some of the avowed enemies of the United States building up war machines, and producing nuclear weapons, why are we closing many of our military bases? I suggest that the "UNAMERICAN" forces that are furthering these deeds, should be taken to task for these activities and shown to the American people for what they

indeed are, “TRAITORS” to this great nation of ours.
