Normally, watching CSPAN you will often come across tidbits of good information. Through their search engines, it is possible to review the hearings especially those programs involving hearings conducted by the United States Congress. On July 5, 2006, a hearing at the border guard station in San Diego, California caught my attention. Several prominent Republicans and Democrats were on the panel concerning Border Vulnerability. They were interview panels of selected individuals including a panel of county Sheriffs who are responsible for controlling aliens once they cross the border.

On July 5, 2006 the following exchange took place between U.S. Representative William Bilbray and William Kolender, Sheriff of San Diego County. This is an 11-second transcript of that hearing including the time markers.:

2:55:56 - Rep. Bilbray: "Do you want to break the news about three law enforcement officers concerning an incident that took place about two miles from this location in the last couple of weeks?"

2:56:02 Sheriff Kolender: "They were killed."

2:56:04 Rep. Bilbray: "They were not only killed, they were decapitated (Beheaded) weren't they?"

2:56:07 Sheriff Kolender: "Yes!"

Within this same time period, Private Tucker a Marine from Madras, Oregon is tortured and beheaded in Iraq. He received International press and was laid to rest in Central Oregon.

In the meantime the main stream media failed to report the beheading of three law enforcement officers. Where is the outrage by the Senators Boxer, Reid, McCain, Feingold, and Kennedy. Why the silence? Why the cover-up? To make matters worse the video recording of the hearing was buried by CSPAN. No press, and the President said nothing. It is easier to secure a video of Private Tuckers ordeal than find the video regarding the beheading of deputies in San Diego county. Fortunately the clip can be viewed at www.plantek.us.

Who were these brave officers and where are their families? This type of cover up

deserves the attention of voters all across America. It is time to weed out Congress and send the moderate Republicans' and leftist Democrats home, or better yet turn them and their families into border guards.
