

On Saturday, August 26, 2006, approximately 70 supporters of Save Our State and the Minutemen gathered in Maywood, California to protest the city's decision to openly declare themselves a sanctuary city for illegal aliens. They were met by an angry mob of illegal aliens that displayed offensive signs, damaged property, assaulted Americans, and removed the US Flag from the post office replacing it with a Mexican flag.

"When large mobs of people gather in American streets displaying overtly racist messages, then lower the US flag and replace it on property owned by the American taxpayers we have a serious problem," says William Gheen of ALIPAC. "Every American needs to see the video of the Mexican flag being raised by this large mob. We need our existing immigration laws enforced now because our nation is losing control of some American cities that are filled with illegal aliens."

At least four vehicles belonging to supporters of law enforcement were vandalized. Several people protesting against illegal immigration were physically assaulted despite a heavy police presence.

The counter protesters that support illegal immigration and Maywood's sanctuary policies displayed signs that read....

"This is OUR Continent NOT Yours!"  
"All Europeans are illegal on our Continent since 1492"  
"Illegal European Invaders Go Back to Europe"  
"We are Indigenous. The ONLY owners of this Continent!"  
"Stolen Continent!"  
"Deport white supremacist Minutemen / SOS to Europe"  
"Workers of the World Unite!"  
"Racist Pilgrims!"

Video taken at the event also captured illegal alien supporters threatening to kill Americans, calling them "blue eyed devils," and singing communist chants.

"I've personally witnessed this type of mob behavior with the same messages in at least a dozen cities and towns across Southern California" says Don Silva, regional director of Save Our State. "We need the federal government to immediately ascertain the strength of this growing anti-

American separatist movement that is being fueled by illegal immigration."

For photos of this event, video capturing these signs, slogans, and the Mexican flag replacing the US flag please visit the following link. We are also providing links to the websites of the separatist organizations encouraging these mobs.
