

ON THE NEW FRONTIER IN THIS NEW CENTURY

“What is essential in war is victory, not prolonged operations.”

From *The Art of War* -- by the ancient Chinese scholar, Sun Tzu.

The New Frontier Coalition is a new political organization. It was founded for the purpose of uniting Independents, Patriot groups, established “Third Party groups,” and all the Unrepresented Citizens who are tired of seeing their basic rights trampled, and their basic freedoms slipping away into the hands of the Leviathan government.

Normal, patriotic Citizens *suffer in confused agony* as they watch the battlefield reports from an Undeclared War, *one promoted by both Democratic and Republican political leaders*. It is a war of “prolonged operations” that has wasted much blood, and so much treasure.

These Democratic and Republican *political leaders* have held a total monopoly on political power in elections, for more than fifty years.

They are always finding new ways to give away the jobs, and the very livelihoods of our Citizens to Most-Favored foreign countries, while embroiling the U.S. in an endless parade of *despicable foreign entanglements* and no-win foreign wars. Their hired hands and their professional pundits tell the Citizens *that everything will be all right*. Meanwhile both parties are guilty of undercutting our tool industry and making basic factory jobs vanish from our towns, guilty of writing laws *which specifically reward those corporations* who are outsourcing all those good, high-salary I.T. jobs to India.

We are *determined* to return our country to the principles of the U.S. Constitution: we know that corporate lobbyists play this cruel game according to the rules that *political leaders* write and enforce. Our goal as members of the New Frontier Coalition will not be to act as a Citizens’ Lobby: we will remove these hired shills *and the agents* of “Corporate America” from Washington, by running candidates and by winning races in the States and in the House of Representatives.
