

# No Border Security? No More Taxes!

- \* Illegal Aliens who have invaded this country, are pushing down wages, using public health care without paying for it, and overloading the public schools.
- \* Our taxes are paying for the benefits these border-jumpers receive in the public arena, thus Citizens are forced into giving aid and comfort to criminal behavior.
- \* The executive branch of the federal government is charged to faithfully execute the laws of the land, which includes immigration laws.
- \* The federal government is charged with protecting the States and the people from invasion. For almost twenty years they have failed to execute this responsibility. They continue to allow illegal immigrants to come into our country unchecked, including screening for diseases
- \* Most of these border-jumpers have migrated here to make money, and they are not paying their fair share of taxes.
- \* The President and the leaders in the Congress have openly defied the Constitutional commands to provide protection at the borders:
- \* They have nullified their responsibilities and authority, by failing to enforce the law of the land.
- \* We as taxpayers will not pay taxes to support those who are here in violation of our laws.
